

REMARKS

The Examiner has sought restriction of the present application to the invention of either claims 1-5, 7-21 and 23, drawn to a semi-conductor device and claim 22, drawn to a method to make a semi-conductor device.

Responsive to the request, Applicants restrict the present application to the semi-conductor device claims, claims 1-5, 7-21 and 23, without traverse.

As the Examiner has also indicated that there are five (5) patentably distinct species of the device disclosed, Applicants elect the species set forth in Figs. 2 and 3 for initial examination. Claims 1-5, 7-14 and 23 read on the elected species. Claim 1 has been identified by the Examiner to be generic. Claim 23 is also generic to all claimed species.

Applicants have also corrected a typographical error in claim 23.

Respectfully submitted,
